| Included in Kit | 8 | 8 | 240 | 120 | 112 |
| Extra | 7 | 0 | 1 | 1 | 0 |

Proper spacing must be adhered to when placing circle kit stones. Please expect spacing of 1/4" to 1/2" between stones and 1/4" to 3/8" between courses when installing the circle kit. Joint sand will fill the gaps and help complete the interlock. 1/4" tile spacers can be utilized between courses to assist with proper spacing.
