TAP INTO YOUR POTENTIAL. **THINK BRICK.**

BRICK PAVERS HAVE MORE ADVANTAGES Than you can imagine.

VERSATILE & PRACTICAL

Design with clay. The Romans have not regretted it. Basalite offers a large selection of brick pavers from partner companies Interstate Brick, H.C. Muddox, Royal Thin Brick and Pacific Clay. Whether you're looking for pavers for pedestrian, light vehicular or heavy traffic there's a paver for every project.

Our pavers are so durable that Architects, Builders and Contractors feel secure in using them on sidewalks, driveways, patios, interior flooring or even city streets.

LOW-MAINTENANCE & COST-EFFECTIVE

The benefits of our clay brick far exceed the cost of concrete. Because our pavers are so easy to install, homeowners can feel confident that they will get a finished project that is both beautiful and inexpensive. Natural clay pavers continue to be the low-maintenance solution for pathways, drive-ways, parking lots, patios and pool decks with their resistance to all weather elements.

FLEXIBLE & DURABLE

Both rigid and flexible base applications, no other paving materials match the durability and beauty of our pavers in driveways, patios, plazas, and other landscaping applications.

SHAPES & PATTERNS

We have a catalog of products that is so extensive the combinations are seemingly endless. For the discerning designer who strives to incorporate a signature that users will interact with for centuries to come, you can design your own pattern. Step into the driver seat, peruse our available shapes and get inspired with patterns and texture in your design. Have fun!

SHAPE

Queen Paver 2¾" x 7⁵⁄8"

Queen Corner Paver 2¾" x 3%" x 7%"

TEXTURE

Royal thin brick is tumbled after firing to capture the essence of worn reclaimed brick. During the tumbling process, crisp edges are worn down, and sharp corners are rounded or knocked off.

The appearance of distressed brick is made complete with a traditional wire cut face that gives it added texture and variation.

An elegant brick paver that brings warmth to this coastal restaurant patio.
