

Simplified Installation

PisaEdge is an innovative segmental retaining wall system that brings a sleek, modern aesthetic to any landscape project. The optimally sized blocks ensure swift and efficient installation, with many contractor-friendly features. Allowing for both battered (slight lean) retaining or perfectly vertical orientation, providing a wide array of installation possibilities. Easily construct garden or large retaining walls, two-sided seat walls, pillars, planters, or almost any other vertical element.

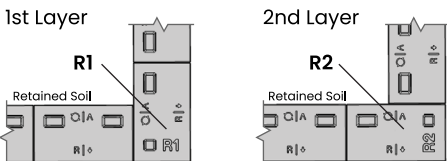

Retaining Walls

Create Retaining walls by installing blocks with the arrow point forward toward the wall face on all layers.

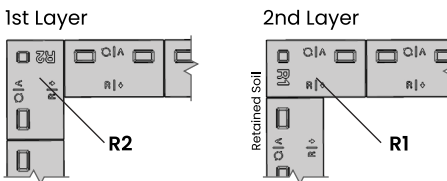

Outside Corners

Create **Outside** Retaining wall corners by alternating between **R1** and **R2** blocks.

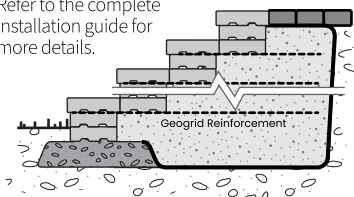

Inside Corners

Create inside Retaining wall corners by alternating between **R1** and **R2** blocks.

Steps

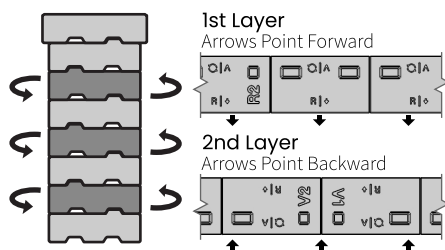

Refer to the complete installation guide for more details.

Secure all blocks together with approved concrete adhesive. Please visit www.risistone.com for additional installation guides & details.

Vertical Walls

Create Vertical walls by rotating the blocks, alternating the arrow Forward or Backward every other layer.

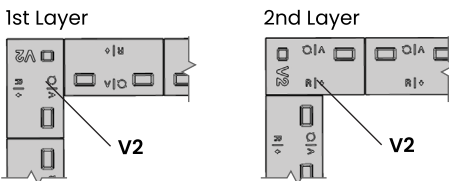

Outside Corners

Create **Outside** vertical wall corners by utilizing either **ALL V1** or **ALL V2** blocks.

Inside Corners

Create inside vertical wall corners by utilizing either **ALL V1** or **ALL V2** blocks.

Pillars

Build pillars utilizing **All V1 & R2** or **All V2 & R1** blocks and remove the small knobs. Alternate Arrows facing in and out on every other layer.
